

H2EPAYMENT module installation for ZenCart

v.2009-09-17

» Requirements.

The usage of H2EPAYMENT payment module for ZenCart requires the following features:

- ZenCart version 1.3.7.1, ou 1.3.8
- H2EPAYMENT plugin for ZenCart
- Having an H2EPAYMENT webmaster account

» Component installation at ZenCart.

1- Unzip ZenCart_plugin1.3.7.1b_h2epayment .zip file.

2- Install the files at your ZenCart directory as follows:

- / h2epayment _caller.php
-> / h2epayment _caller.php
- /admin/includes/md5.js
-> /admin/includes/md5.js
- /includes/languages/english/modules/payment/ h2epayment .php
-> /includes/languages/english/modules/payment/ h2epayment .php
- /includes/languages/spanish/modules/payment/ h2epayment .php
-> /includes/languages/spanish/modules/payment/ h2epayment .php
- /includes/languages/french/modules/payment/ h2epayment .php
-> /includes/languages/french/modules/payment/ h2epayment .php
- /includes/languages/italian/modules/payment/ h2epayment .php
-> /includes/languages/italian/modules/payment/ h2epayment .php
- /includes/languages/german/modules/payment/ h2epayment .php
-> /includes/languages/german/modules/payment/ h2epayment .php
- /includes/modules/ h2epayment _change_order_status.php
-> /includes/modules/ h2epayment _change_order_status.php

- /includes/modules/payment/h2epayment.php
→ /includes/modules/payment/h2epayment.php

» Component configuration at ZenCart.

To configure the component, it is necessary to log in to your backoffice at the same time.

At OSCommerce:

- Log in to the administration area of your ZenCart site (e.g.: http://your_osc_site/administrator)
- Go to the left menu and click on 'Module' – 'Payments',
- Select the H2EPAYMENT plugin from the Payment Module section and click on 'Install',
- Click on the 'Edit' button on the right.

At your backoffice:

- Log in to your backoffice ([https:// www.h2epayment.com /backoffice](https://www.h2epayment.com/backoffice)).
- Go to the "Admin. Site" – "Modif. Site" on the left menu and click on "MODIFY".

Make the following changes :

» URL Return Auto (../h2epayment_caller.php) :

Copy the URL from the 'URL Return Auto' field at ZenCart, and paste it on the 'URL Return Auto' field on the '2 Site infos' tab at your backoffice. You have to select the POST method

» URL Return OK :

Copy the URL from the 'URL Return OK' field at ZenCart, and paste it on the 'URL Return OK' field at your backoffice.

» URL Return no OK :

Copy the URL from the 'URL Return no OK' field at ZenCart, and paste it on the 'URL Return no OK' field at your backoffice.

» URL Return Authorization :

Copy the URL from the 'URL Return Authorization' field at ZenCart, and paste it on the 'URL Return Authorization' field at your backoffice.

» Session Variable:

Copy the variable from the 'Session Variable' field at ZenCart, and paste it on the 'Session Variable' field at your backoffice.

On ZenCart, fill the following fields:

- "NumSite": enter your site number (e.g. 935xxxx)
- "Password": enter your password (use the encrypting link)
- "Key Phrase": if you have completed the 'Signature' field at your backoffice you should indicate it as well at OSCommerce parameters.

» Switching to Production mode

Once configuration is complete, your shop will be configured in Test mode.

In Test mode you can make simulated payments, with no connection to the banking network. For your VISA/MASTERCARD test payments, you can use our test card # 4111111111111111. Valid date should be subsequent to the current date and CVC should be lower than 500.

To switch your site to Production mode, follow these steps:

- Request activation via the 'Support' menu in the BackOffice
Once technical, contractual and content issues are addressed, a confirmation email will be sent to you.

Once you receive email confirmation:

- Log in to the administration area of your ZenCart site (e.g.: http://your_ZenCart_site/admin)
- Go to the left menu and click on 'Module' – 'Payments'.
- Select the H2EPAYMENT plugin from the Payment Module section and click on 'Edit'
- At the " H2EPAYMENT function mode", select 'Prod' and confirm your modification.

Your shop will be switched to Prod mode and may start receiving real payments.
